1.48 cluster

ES: racimo.

A *cluster* is a range of simultaneously sounding pitches that may change over time. The set of available pitches to apply usually depends on the acoustic source. Thus, in piano music, a cluster typically consists of a continuous range of the semitones as provided by the piano's fixed set of a chromatic scale. In choral music, each singer of the choir typically may sing an arbitrary pitch within the cluster's range that is not bound to any diatonic, chromatic or other scale. In electronic music, a cluster (theoretically) may even cover a continuous range of pitches, thus resulting in colored noise, such as pink noise.

Clusters can be denoted in the context of ordinary staff notation by engraving simple geometrical shapes that replace ordinary notation of notes. Ordinary notes as musical events specify starting time and duration of pitches; however, the duration of a note is expressed by the shape of the note head rather than by the horizontal graphical extent of the note symbol. In contrast, the shape of a cluster geometrically describes the development of a range of pitches (vertical extent) over time (horizontal extent). Still, the geometrical shape of a cluster covers the area in which any single pitch contained in the cluster would be notated as an ordinary note.

F: guidon, D: Notenzeiger.

A custos is a staff symbol that appears at the end of a staff line with monophonic musical contents (i.e., with a single voice). It anticipates the pitch of the first note of the following line and thus helps the player or singer to manage line breaks during performance, thus enhancing readability of a score.

Custodes were frequently used in music notation until the 16th century. There were different appearances for different notation styles. Nowadays, they have survived only in special forms of musical notation such as via the editio vaticana dating back to the beginning of the 20th century

ES: escala diatónica, I: scala diatonica, F: gamme diatonique, D: diatonische Tonleiter, NL: diatonische toonladder, DK: diatonisk skala, S: diatonisk skala, FI: diatoninen asteikko.

A scale consisting of 5 \Rightarrow **whole tones** and 2 \Rightarrow **semitones (S)**. Scales played on the white keys of a piano keyboard are diatonic.

The church modes are used in gregorial chant and in pre-baroque early music but also to some extent in newer jazz music.

Notes are signs by means of which music is fixed in writing. The term is also used for the sound indicated by a note, and even for the key of the piano which produces the sound. However, a clear distinction between the terms tone and \Rightarrow **note** is strongly recommended. Briefly, one sees a note, and hears a tone.

ES: valor (duración), I: valore, durata, F: durée, valeur (d'une note), D: Notenwert, NL: nootwaarde, DK: nodeværdi, S: notvärde, FI: nuotin aika-arvo.

Note values (durations) are measured as fractions, normally $1/2$, of the next higher note value. The longest duration normally used is called *brevis*, but sometimes (mostly in pre-baroque music) the double length note value *longa* is used.

An augmentation dot after a note multiplies the duration by one and a half. Another dot adds yet a fourth of the duration.

Alternatively note values may be subdivided by other ratios. Most common is subdivision by 3 (*triplets*) and 5 (*quintuplets*). Subdivisions by 2 (*tuplets*) or 4 (*quadruplets*) of dotted notes are also frequently used.

The image shows four musical examples of groupings. The first example is in C major, 4/4 time, showing a triplet of eighth notes and a quintuplet of eighth notes. The second example is in 3/4 time, showing a duplet of eighth notes and a quadruplet of eighth notes.

Most commonly used is the *trill*, the rapid alternation of a given note with the diatonic ⇒ **second** above it. In the music from the middle of the 19th century and onwards the trill is performed with the main note first while in the music from the preceding baroque and classic periods the upper note is played first.

The image shows two examples of trills. The first example, labeled 'pre-1850', shows a trill starting with the upper note. The second example, labeled 'post-1850', shows a trill starting with the main note. The notation includes a trill symbol (tr) above the notes.

Other frequently used ornaments are the *turn*, the *mordent*, and the *prall* (inverted mordent).

The image shows three examples of ornaments. The first is a 'turn' (a wavy line above a note), the second is a 'mordent' (a vertical line with a hook above a note), and the third is a 'prall' (an inverted mordent above a note). The notation includes the respective ornament symbols above the notes.
